Transpn Res.-C, Vol. 4, No. 6, pp. iii–v, 1996
Published by Elsevier Science Ltd. Printed in Great Britain

LIST OF CONTENTS

Volume 4C, No. 1, February 1996

Bin Ran and **David E. Boyce** — 1 — A link-based variational inequality formulation of ideal dynamic user-optimal route choice problem

Brett E. Koenig, Dennis K. Henderson and **Patricia L. Mokhtarian** — 13 — The travel and emissions impacts of telecommuting for the State of California Telecommuting Pilot Project

David R. Martinelli and **Hualiang Teng** — 33 — Optimization of railway operations using neural networks

I Forthcoming Papers

Volume 4C, No. 2, April 1996

H. Zhang, S. G. Ritchie and **W. W. Recker** — 51 — Some general results on the optimal ramp control problem

Karl F. Petty, Hisham Noeimi, Kumud Sanwal, Dan Rydzewski, Alexander Skabardonis, Pravin Varaiya and **Haitham Al-Deek** — 71 — The Freeway Service Patrol Evaluation Project: database support programs, and accessibility

M. William Sermons and **Frank S. Koppelman** — 87 — Use of vehicle positioning data for arterial incident detection

Jonathan Levine and **Steven E. Underwood** — 97 — A multiattribute analysis of goals for intelligent transportation system planning

I Forthcoming Papers

Volume 4C, No. 3, June 1996

Qi Yang and **Haris N. Koutsopoulos** — 113 — A microscopic traffic simulator for evaluation of dynamic traffic management systems

Said Mammar, Albert Messmer, Peder Jensen, Markos Papageorgiou, Habib Haj-Salem and **Lone Jensen** — 131 — Automatic control of variable message signs in Aalborg

Deborah Shmueli, Ilan Salomon and **Daniel Shefer** 151 Neural network analysis of travel behavior: evaluating tools for prediction

Bin Ran, Wenjing Huang and **Shawn Leight** 167 Some solution strategies for automated highway exit bottleneck problems

I Forthcoming Papers

Volume 4C, No. 4, August 1996

M. Broucke and **P. Varaiya** 181 A theory of traffic flow in automated highway systems

Randolph W. Hall and **David Lotspeich** 211 Optimized lane assignment on an automated highway

Jean-Louis Gallego, Jean-Loup Farges and **Jean-Jacques Henry** 231 Design by Petri nets of an intersection signal controller

I Forthcoming Papers

Volume 4C, No. 5, October 1996

Piyushimita (Vonu) Thakuriah and **Ashish Sen** 249 Quality of information given by advanced traveler information systems

Asad Khattak and **Adib Kanafani** 267 Case-based reasoning: a planning tool for intelligent transportation systems

Randolph W. Hall 289 Route choice and advanced traveler information systems on a capacitated and dynamic network

Mascha van der Voort, Mark Dougherty and **Susan Watson** 307 Combining Kohonen maps with ARIMA time series models to forecast traffic flow

I Forthcoming Papers

Volume 4C, No. 6, December 1996

Aura Reggiani 319 Design and management of transport networks. New approaches and experiments from a European and American perspective: an introduction

Peter Nijkamp, Aura Reggiani and **Tommaso Tritapepe** 323 Modelling inter-urban transport flows in Italy: a comparison between neural network analysis and logit analysis

Francisco J. Jauffred and **David Bernstein** 339 An alternative formulation of the simultaneous route and departure-time choice equilibrium problem

B. Jourquin and **M. Beuthe** 359 Transportation policy analysis with a geographic information system: the virtual network of freight transportation in Europe

Harvey J. Miller and **John D. Storm** 373 Geographic information system design for network equilibrium-based travel demand models

Domenico Campisi and **Massimo Gastaldi** 391 Environmental protection, economic efficiency and intermodal competition in freight transport

Rajendra G. Kulkarni, Roger R. Stough and **Kingsley E. Haynes** 407 Spin glass and the interactions of congestion and emissions: an exploratory step

I Forthcoming Papers
